

# OMAHA POLICE

## NEIGHBORHOOD ALERT !

Prepared on March 31, 2008 Northwest Police Precinct

### Garage Door Openers

The Omaha Police Department has noticed an increase in thefts of garage door openers. The suspects are known to be checking cars that are parked on the street, in the driveway or in the garage. They are opening the cars and stealing the garage door openers with the intent to break into the house at a later date. We are advising people to keep their garage door openers with them rather than leaving them in the cars. If your opener is stolen please take the precaution to reset your code immediately.

At this time there is no physical description available other than possibly a group of males working together.

If you see anything suspicious please do not hesitate to call 911.
